Your online presence. Hi there! I'm a full stack software engineer.

Most recently, I solved 120+ user-reported bugs per month as the only Support Engineer at [Survata](#), a YC-backed startup.

I taught myself to program, starting with JavaScript, after 3.5 years collaborating with developers on their interviews, talks, and blog posts at [Stripe](#).

I learn through building things, like a Node.js and Twilio [app](#) to help restaurants during COVID-19; [data visualizations](#) for a nonprofit using Nivo (D3js) and MySQL; and Dolly Parton-inspired [demos](#) in React.

**Kimberlee Johnson**  
@kimjeejohnson

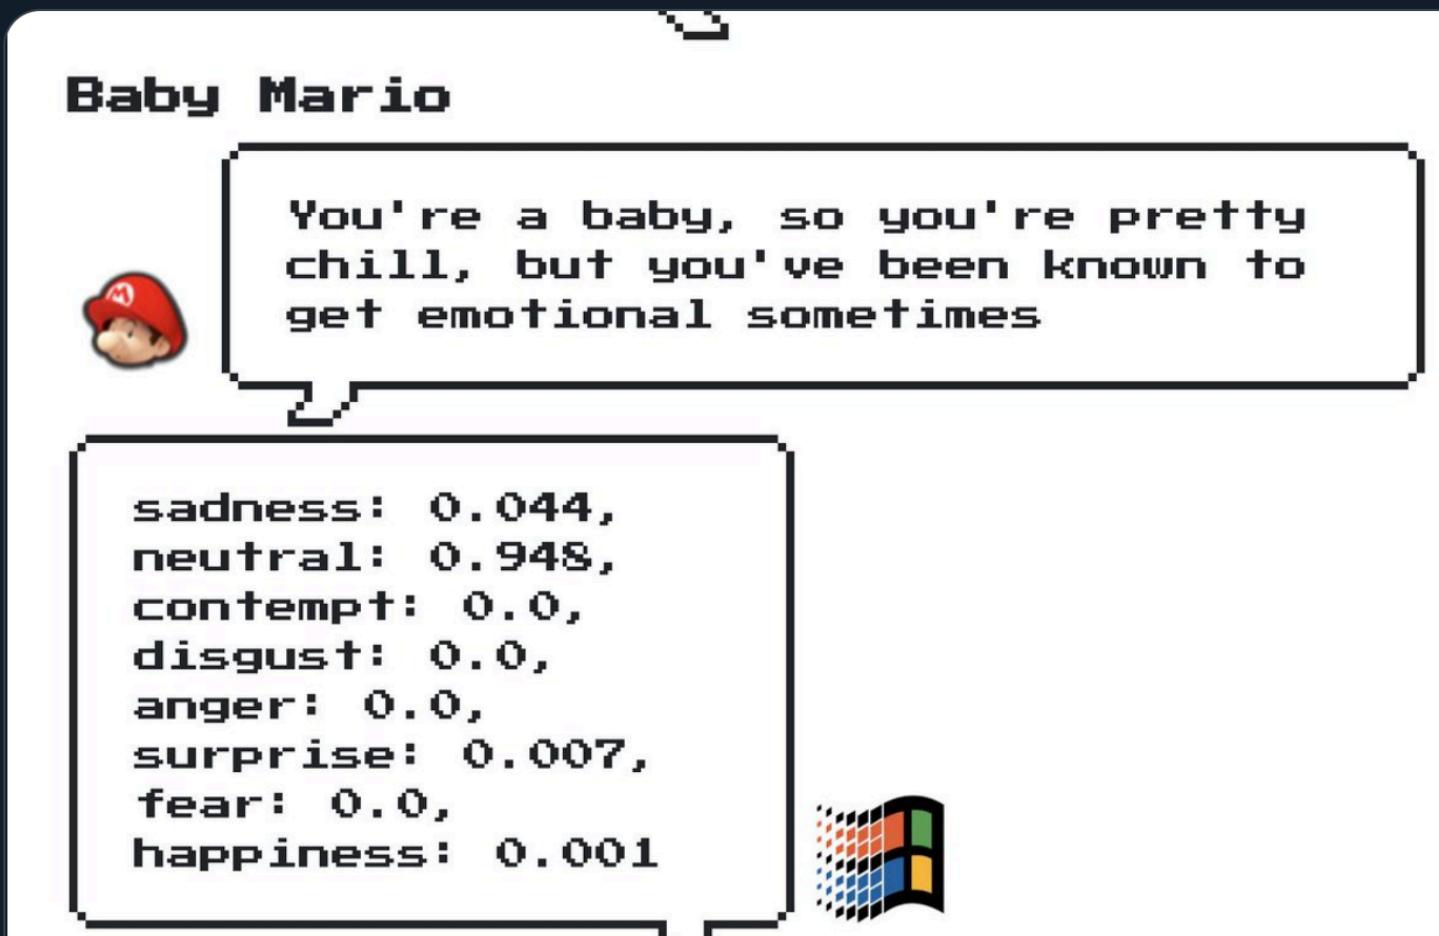

I left my comms job at [@stripe](#) six months ago, but today I came back for a developer workshop 🚧💸

I integrated Stripe Billing in < two hours, thanks to [@trudeauci](#)

Chloe Condon   
@ChloeCondon

Made some progress on my Mario Kart + Zodiac sign project using the [@Azure #FaceAPI!](#) Blog post + sample code will be ready soon, but in the meantime you can check out [aka.ms/mariozodiac](http://aka.ms/mariozodiac)

# DON'T INVEST TIME IN BAD FRIENDSHIPS

“Don’t feed the trolls” (and don’t be a troll!)

# WHERE DO I FIND FRIENDS??

On Netflix (just kidding- EVERYWHERE!)

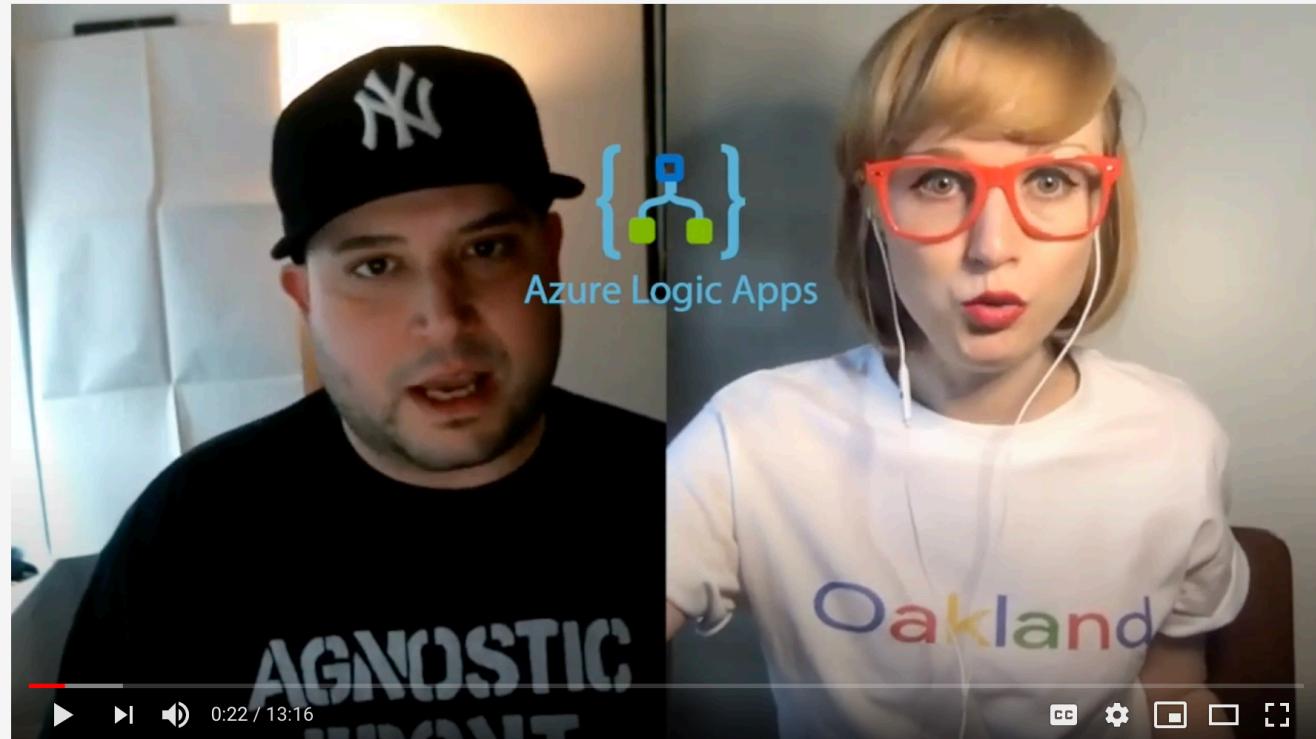

# HOW SHOULD I START?

- Find and follow people you admire
- Join online/virtual meet-ups
- Reach out
- Ask around
- Can't find what you're looking for? Create your own community!

# SIMPLE PROJECT- BUILD A SLACK BOT TO FOLLOW HASHTAGS!
